[Step 2 - Open Fur Factory](#)

[Step 3 - Generate the Fur](#)

[Step 4 - Hair Cut.](#)

[Step 5 - Hair Spray](#)

[Step 6 - Comb him](#)

# Introduction

This is a step by step guide to creating fur on the wolf demo character. Also included with Fur Factory is the UserDocumentation.pdf which gives you a more detailed explanation of each part of Fur Factory.

## Step 1 - Prepare the model

Drag the wolf from the project into the hierarchy (FurFactory>Wolf>Models>wolf). Make sure you reset its position, rotation and scale.

Drag the wolf material onto the wolf (Wolf\_MAT in FurFactory>Wolf>Models>Materials). If you look at the material you will see it has a texture called wolfColor. This will be the color that the fur will use. As you can see it doesn't need to be too special to get a really nice result.

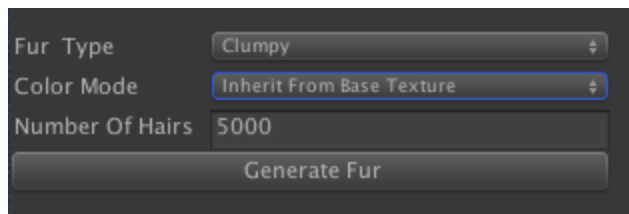

Set the Animator Controller to WolfAC (FurFactory>Wolf>Animations>WolfAC) This could be done later of course.

## Step 2 - Open Fur Factory

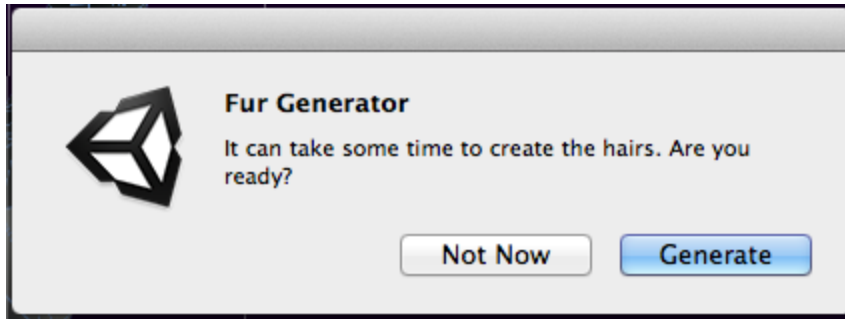

To open Fur Factory go to [Window>FurFactory>Open Fur Factory](#)

## Step 3 - Generate the Fur

Change the color mode to Inherit From Base Texture so your UI will look like this:

Now select the wolf\_GEO in the hierarchy (wolf>wolf\_GEO) and click Generate Fur

Now click Generate. It can take a minute, it's worth the wait though!

He should look something like this:

## Step 4 - Hair Cut.

Now let's shave the fur off the face and paws. First change the Brush Type to Scissors and paint the face and paws. If you paint the wrong part don't worry, either use undo or hold CTRL to regrow the hair.

You should now have something like this:

## Step 5 - Hair Spray

Looks like the fur needs a bit of fluffing up! Change the Brush Type to Hair Spray and run it along his spine and tail, so he'll look something like this:

## Step 6 - Comb him

Now let's make things a bit less even. Change the brush tool to Comb and brush around make his fur a little more messy! I like to switch back and forth between the Hair Spray and Comb, until I get the look I want!

Here's how I did, press play to see him run :-)
